

PRODUCT INFORMATION

The AC-3100 is a standalone proximity reader which can control one door.

The reader has an on-board memory which stores up to 30 card / tag holders and is programmed with a master card (supplied).

The Push to Exit button and the Lock are wired direct to the reader. The lock relay can be configured for "pulse" or "latch" mode.

Technical Specification

Mechanical

Housing: Moulded Polycarbonate with fully encapsulated electronics

Size: 120mm x 45mm x 25mm

Weight: 100g nominal

Mounting: 2 screws (supplied)

Environmental

Operating Temp: -20°C to +60°C

Humidity: 100% RHNC

Electrical

Voltage: +12vdc

Current: 120mA Max

Indication: Tri-colour LED and buzzer

Approvals

CE, ROHS Compliant
